

Elementary JJJ

Board of Education Report

February 2010

Science Fair

Sixth grade students will be conducting experiments using the scientific method to enter a science project in the 6th Grade Science Fair. Parents were invited to Elementary III to complete a project of their own and learn how to help at home with this assignment. Teachers are also hosting two student workshops in February to help students complete their projects and use school technology.

Elementary JJJ Helps Haiti

The students at Elementary III are bringing in donations for the people of Haiti. All money collected will be donated to Convoy of Hope. The teachers of the grade level that raises the most money gets to put a pie in the face of the losing grade level. This has really made things interesting ☺

NWEA Testing

Students are completing the Northwest Evaluation Association assessment. The results will be

used to make instructional decisions.

Essential Learning

Students at Elementary III are currently learning the following essential skills and content:

- Multiplication and division of fractions
- Symmetry
- Ancient civilizations
- Solar System

Calendar

February 6 – Pancakes with Pop
February 10 – Mid-quarter grades go home
February 12 – Friendship Parties
February 15 – No school for students

Enrollment

Fifth Grade Students: 344
Sixth Grade students: 340
Total Enrollment: 684
Attendance: 94%

Character Wall

Fair students will be recognized during the month of February. They will be asked to sign the Character Wall.

Elementary JJJ, the Place to be!
