District Information

Welcome Fellow Teammates,

The 2020-2021 school year is here and we are all very excited! Who could have predicted the circumstances associated with the COVID-19 virus? Last spring we were reminded that the things we love can be quickly taken away from us. We are looking forward to getting back into the routines of school and activities as the 2020-2021 school year gets started.

One thing is for sure, we are excited that each of you are part of the Republic School District team! As a team, we want to continue to develop a 'world class' culture which seeks to take care of students and teammates first and foremost. Each person on the REPMO team is important and has a leadership role in helping our students and staff succeed each and every day.

From a fellow teammate, I would like to thank each of you for giving of your time to ultimately help the children of Republic succeed and grow into caring young adults upon graduation. Have a great school year and we look forward to seeing each of you soon.

#Go Tigers

Employee Information

Hiring Procedures for Current Employees E-105-E

Current employees who are qualified for an open position may apply for advertised positions. The Superintendent has the authority to assign a current staff member to an open position, subject to any required approval by the Board. If such an assignment is to a newly created position, the Board must approve the reassignment. If such an

assignment results in an increase in compensation and/or requires the execution of a new contract of employment, the Board must approve such the reassignment.

Employment of Retirees

Individuals who are retirees receiving retirement benefits from the Missouri Public School Retirement System, the Public Education Employee Retirement System, the Kansas City Public School Retirement System or the Public School Retirement System of the City of St. Louis may be employed by the District in accordance with the laws and regulations governing the hiring of retirees.

The District will not reach a formal or informal agreement, written or unwritten, to employ an individual post-retirement, until after the individual has received his or her first payment of retirement benefits.

The Superintendent or designee will maintain documentation regarding the amount of time worked by a retiree in the District and retirees hired by the District are required to maintain documentation of any work for any other public school system other than the District and provide those records to the District on the basis directed by the Superintendent or designee, to ensure compliance with regulations regarding hours worked by retirees.

Public Service Loan Forgiveness Information

If you are a teacher, you may be eligible for certain public service loan forgiveness programs offered by the federal government. For the most up-to-date information regarding such programs, please go to:

<https://studentaid.ed.gov/sa/repay-loans/forgiveness-cancellation/teacher>

Criminal Background Checks

Prior to employment of any individual authorized to have contact with students, the District must obtain a criminal background check that is satisfactory. Whether a background check is satisfactory is in the sole discretion of the Superintendent or designee. A criminal background check may include, but is not limited to:

- Federal Bureau of Investigation criminal history files
- Missouri State Highway Patrol criminal history database
- Missouri State Highway Patrol sexual offender registry
- Family Care Safety Registry or the central registry of child abuse and neglect of the Children's Division of the Department of Social Services
- Missouri Case.net
- Other databases required by the law or by the District

Staff members may be required to submit to additional background checks, rerun background checks, or participate in state or federal RAP back programs at District expense. The District may update criminal background checks as often as the Superintendent determines.

Compliance with the Fair Labor Standards Act E-110-E

The Superintendent or designee shall make a determination regarding whether a staff member is exempt or nonexempt under the Fair Labor Standards Act (FLSA).

Overtime: Overtime hours are the actual hours worked in excess of 40 hours in a workweek. Exempt employees are not eligible for overtime compensation or compensatory time. Nonexempt employees shall not work overtime without the express prior approval of a supervisor designated by the Superintendent to approve overtime.

Compensatory Time: The working of overtime and/or the use of compensatory time MUST be approved by the supervisor in advance. Time off shall be awarded to non-exempt employees at the rate of one and one-half times the number of actual hours worked in excess of 40 hours in a workweek.

The following classifications of employees may be provided compensatory time in lieu of overtime: non-exempt employees.

Compensatory time may be accrued up to 240 hours (160 OT hours). Overtime worked beyond this maximum accrual will be monetarily compensated at the rate of one and one-half times the individual's rate of pay. All accrued comp time not used will be paid out annually in June.

The District may require that an employee use accrued compensatory time. The District will approve the use of compensatory time within a reasonable period of time after the request has been made to an employee's supervisor unless the use of compensatory time would impose an unreasonable burden on the District's ability to conduct District operations. In such a case, the use of compensatory time may be postponed by the District.

Upon leaving the District, an employee will be paid for any unused compensatory time at a rate not less than the average regular rate received by such employee during the last three (3) years of the employee's employment, or the final regular rate received by such employee, whichever is higher.

Workweek: A workweek is a period of 168 hours during seven (7) consecutive 24-hour periods. The workweek shall begin on Sunday at 12:00 a.m.

Timekeeping: All non-exempt employees are required to accurately complete a daily time record showing actual hours worked. All district employees in FLSA non-exempt positions must record all hours worked on each day using the approved district time clocks. Non-exempt employees working more than one job within the district should document their time on separate time logs specific to each position. The total number of hours reported in the time clock should be calculated to the closest quarter-hour.

Breaks for Nursing Mothers

The District will provide a reasonable break time for employees to express milk for her nursing child for one year after the child's birth. The District will provide a location,

other than a bathroom, that is shielded from view and free from intrusion of coworkers and the public. Certified staff members need to meet with their building principals to develop a schedule.

Compensation of Employees

- J) Teachers: Teachers will be compensated according to a salary schedule applicable to all teachers of the District in accordance with the law. Certified teachers will be placed on the salary schedule according to their years of experience and education level when they begin employment. The District may recognize similar, previous experience of an employee when placing that employee on the salary schedule. The Board delegates to the superintendent or designee the authority to set guidelines on which previous experiences qualify. In addition, the District may recognize military service or work experience that the District considers beneficial to the position. It is the employee's responsibility to fully apprise the District of his or her relevant background when first being employed in the position. Once the employee is initially placed on the salary schedule, the District is under no obligation to review the placement.

Generally, a teacher may not advance more than one step vertically and one column horizontally each year. Any hours that a teacher wishes to have applied to the salary schedule must be transcribed by the university or college and turned into the District by August 20th. Teachers will advance one year on the schedule for each year they complete with the District unless the Board takes action to freeze the schedule prior to July 1.

- J) Professional Non-Certified Staff Members: Non-certified professional staff members may be compensated according to a salary schedule developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment or contracts of employment.
- J) Support Staff: Support staff members may be compensated according to a wage schedule developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment. Individuals will be placed on the salary schedule when they begin employment based on education and experience within that general employment category. They will advance one year on the schedule for each year they complete with the District unless the Board takes action to freeze the schedule.

The salary schedules approved by the Board of Education can be accessed on the [District's website](#).

Extra Duty Assignment Compensation: Staff members who provide extra duties may be compensated according to a wage schedule for such duties developed by the

Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment. Any salary/wage schedule adopted by the Board may be modified in accordance with the law and in accordance with any applicable employment contracts and/or collective bargaining agreements. The Board may elect to freeze the operation of some or all salary/wage schedules.

Employees who are under contracts of employment shall not receive compensation in excess of the amount set forth in the contract of employment for the contract year unless the employee assumes additional or extra duties beyond the duties contemplated by the contract of employment.

Employees and prospective employees of the District are responsible for providing the District with sufficient information and documentation regarding past work and educational experience to allow the District to ascertain appropriate placement on any applicable salary/wage schedule and/or to determine appropriate compensation for duties and/or extra duty assignments. The District is not required to review or change placement on any salary or wage schedule after an employee's placement has been determined.

Employees may be subject to disciplinary action for providing information that leads to improper placement on a salary or wage schedule, improper assignment of compensation based on education or experience or other relevant factors, or for inaccurately reporting time worked according to the District's timekeeping method/s.

Pay Periods: Payroll is distributed on the 25th of each month. If the 25th falls on a weekend or holiday, payday will be the last workday prior to the 25th.

Pay Checks: All employees will be paid on a monthly basis. Direct deposit is required for employees by the district instead of the traditional issuing of paper payroll checks. Contact the Human Resource Office to arrange for direct deposit. Employees will no longer receive a paper verification of their payroll information; however, they may log into the HR portal for information about deductions, withholdings, and benefit status each month.

Payroll Deductions: Tax deferral options for additional retirement plans and supplemental insurance premiums are available. Contact the Human Resource Office with questions.

Voluntary Deductions: The District may authorize voluntary payroll deductions from compensation earned by employees if ten (10) or more employees so request. The employee must authorize all voluntary deductions in writing. In addition to the deduction of amounts authorized by the employee, the District may deduct the administrative cost of compliance. The amount deducted will be remitted to the organization, company or association authorized by the employee.

Involuntary Deductions: The District may make deductions when an employee owes the District money and the deduction does not otherwise violate the law. The District may make deductions from an employee's pay for unauthorized absences. The District will also make deductions when presented a garnishment, wage attachment or other legal order. The District may deduct amounts owed to the District by the employee for unpaid meal accounts for the employee or the employee's child/ren, and for payment of other District-related accounts such as STRIPES 360, Summer Safari, and other possible charges.

The District may charge an administrative fee for processing such deductions when allowed by law.

Salary deductions for exempt employees shall be computed by dividing the salary, excluding extra-duty pay, by the number of days in the contract period. Deductions for non-exempt employees shall be based upon the hourly rate of the individual employee.

All District employees are responsible for ensuring compensation received from the District is correct according to their contracts/letters of assignment and, for non-salaried staff members, according to their timesheets and time actually worked. Employees must notify the District of any discrepancy in compensation within 30 days of receipt.

The District may deduct any overpayment made to an employee as permitted by law, even if an employee fails to report such overpayment.

Improper Deductions: Employees who believe that pay deductions have been improperly made should immediately report the concern to the Superintendent or designee.

Extra Duties Generally

Employees may be assigned to perform reasonable duties in addition to their regularly assigned job duties if the Superintendent or supervisor determines that the needs of the District so require to adequately serve the needs of the students of the District. Whether compensation for these duties, including overtime compensation, is appropriate will be determined by the Superintendent and approved by the Board in accordance with policy and the law.

Extra Duty Positions: Extra duty positions (such as coaching positions, club sponsor positions, etc.) may be created by the Board and employees may be hired for such positions by the Board upon the recommendation of the Superintendent. Extra duty positions are at-will positions and will be compensated at the rate set by the Board of Education and in compliance with the Fair Labor Standards Act (FLSA), if applicable. Extra duty positions are not subject to the provisions of the Teacher Tenure Act.

Extra Duty Assignments: Upon approval of candidates by a majority of the whole Board, the Superintendent may engage interested employees to perform occasional

extra duty assignments such as concession stand, timekeeping, ticket booth, and other such occasional assignments.

Employee Leave and Absences E-110-E

The District requires that employees have consistent attendance in order to achieve the best outcome for District students and to ensure all District operations run smoothly. The District provides leave to employees, as more specifically outlined below, in order to provide security for employees who need time off for reasons approved herein. Attendance is an essential duty of every employee's position in the District, and excessive or improper absences and/or tardiness create a hardship on the District, its students, and staff. Staff members who are ill should take provided leave in order to ensure the overall health and wellness of the school community.

Absences and Tardiness: Absences and tardiness may be considered excessive or improper under conditions such as, but not limited to the following:

-) The absence or tardiness results in an employee exceeding the number of leave days allotted to him/her;
-) An employee's absences exceed 5 days within a 30-day period, 10 days within a 120-day period, or 20 days within a 180-day period, or creates a hardship on the District;
-) An employee's tardiness exceeds 5 days within a 30-day period, 10 days within a 120-day period, or 20 days within a 180-day period, or creates a hardship on the District;
-) The absence/tardiness was not requested by the employee and/or was not approved by the appropriate supervisor, which includes a "no-call-no-show" situation;
-) The employee provides incomplete or inaccurate information regarding the reason for the need for leave or tardiness, or fails to respond completely or appropriately when directed to provide supporting documentation;
-) The employee is absent from work, fails to contact his or her supervisor, and fails to adequately respond to the District's attempts to contact the employee. Under these circumstances, the District will consider this a resignation by the employee.

Employees who receive vacation time will not have their approved vacation leave absences accounted in the above maximum. The District is entitled to dock an employee's compensation in the event that absences or tardiness are excessive or improper.

Procuring a Substitute Teacher: Punctuality and attendance are a crucial part of the staff's responsibility as each position directly affects the learning environment. If you are unable to report to work on one of your scheduled days, it is your responsibility to notify Penmac as soon as possible so appropriate measures can be taken to cover your position.

Employee Leave: The following leaves will be provided to staff members, unless a contract for employment specifies other leave benefits, in which case the language in the

contract of employment shall control. Regular part-time staff members shall receive leave benefits listed below on a pro-rata basis. Temporary or substitute staff members are not entitled to leave benefits unless specified at the time of employment or as required by law.

Employees who are members of the retirement system shall remain members during applicable periods of leave provided by District policy and under the law and shall receive creditable service in accordance with the law.

Sick Leave: Sick days are earned one sick day per month for each month worked.

-) *Full-Time employees:* 12 month contract/letter of intent = 12 days sick leave
 - o 11 month contract/letter of intent = 11 days sick leave
 - o 10 month contract/letter of intent = 10 days sick leave
 - o 9 month contract/letter of intent = 8 days sick leave

-) *Part-Time employees:* 12 month (6 hrs) contract/letter of intent = 12 days (at 6 hrs)
 - o 12 month (4 hrs) contract/letter of intent = 12 days (at 4 hrs)
 - o 9 month (4 hrs) contract/letter of intent = 8 days (at 4 hrs)
 - o 9 month (3 hrs) contract/letter of intent = 8 days (at 3 hrs)

-) *Double Route Bus Drivers:* 1 day of sick leave allotted per quarter (4 per year)

Certified staff may accumulate sick days up to 90 days maximum. Certified sick leave payoff is \$85.00 per day. Classified staff sick leave payoff is total hours per day times \$9.25 per hour. Support staff may accumulate sick days to 60 days maximum. All days at the end of the school year in excess of the cap will be paid off in June. Upon leaving the District, accumulated sick and personal leave will be paid at the above rates provided staff submit a letter of resignation to the Superintendent no later than June 1 of the current contractual year. No retirement benefits are calculated on sick leave payoff but sick leave payoff is subject to all applicable taxes and other required deductions. Payment for unused sick leave is subject to Board approval.

Absences of more than one hour through four hours shall be counted as a half-day of sick leave. Sick leave may be used for:

-) An employee's own illness, injury, or incapacity. (FMLA leave requirements may apply.)
-) The illness, injury, or incapacity of an employee's immediate family member. (FMLA leave requirements may apply.)
-) Sick leave cannot be applied to the period of leave an employee receives Workers' Compensation benefits for time off due to work-related injuries/illnesses.

Note: Retired teachers who are hired as part-time staff with flexible hours do not receive sick days.

Personal Leave: Personal leave is provided to employees in order to allow employees to conduct personal business which cannot be conducted on other days off or on a weekend. Personal leave may be applied when sick leave has been exhausted and can also be applied to leave that would otherwise be unpaid, such as FMLA leave. Personal leave must be approved by the employee's direct supervisor, and requests should be made, when possible, at least 48 hours in advance of the date leave is required. Personal leave cannot be applied to the period of leave an employee receives Workers' Compensation benefits for time off due to work-related injuries/illnesses.

) *Professional Staff:* Professional staff earn two personal days per school year. (Exception benefit: Professional staff accumulating 25 sick days at end of a school year will begin to earn three personal days the following school year.) If accumulated sick days fall below the 25 days at the end of a school year, then the employee goes back to the two personal days. Professional staff can accumulate up to three personal days. When the three day cap is reached, the excess days will be converted from personal days to sick leave.

) *Support Staff:* Support staff earn one personal day per school year. Support staff can accumulate up to two personal days. When the two day cap is reached, the excess days will be converted from personal days to sick leave.

Part-time staff can accumulate up to two personal days. When the two day cap is reached, the excess days will be converted from personal days to sick leave.

Note: Personal days accumulated and not used are never "lost". If the personal day(s) exceeds the allowed amount, the exceeded day(s) is deducted from personal and added to sick leave.

Vacation: All vacation days for current school year are required to be used by the start of the following school year or will be lost. Vacation days do not accumulate. Vacation days can be used only as earned.

Twelve-month administrative staff earn fifteen vacation days per year. Vacation is awarded each year in July. Twelve-month support staff earn ten vacation days per year. One vacation day is earned per month for the first ten months. Vacation will be awarded each year starting July through April. Twelve-month staff may use a sick day for any purpose as annual leave after being employed

two years (per permission of supervisor). Part-time, twelve-month employees do not have the vacation benefit.

Support staff employed on a twelve-month, full-time basis will receive ten days of paid vacation per year for their first ten years of service in the district. After ten complete years of service in the district, twelve-month support staff will receive 15 days of vacation per year.

Requests for vacation time must be submitted to an employee's immediate supervisor at least three weeks prior to the date of the anticipated vacation and are subject to approval based on the needs of the District and the timing/duration of the requested vacation. Vacation cannot be applied to the period of leave an employee receives Workers' Compensation benefits for time off due to work-related injuries/illnesses.

Current holidays include: Memorial Day, Good Friday, Independence Day, Labor Day, Thanksgiving Day and the day after, Christmas Eve, Christmas Day, New Year's Eve and the day after. Employees must provide notification of the need for leave and the requested amount of leave, at least 30 days in advance when possible and practical. An employee may use any combination of accrued leave or unpaid leave during this period of time. Pregnant employees who need more than twelve weeks of paid or unpaid leave for medically-required, pregnancy-related leave, either before or after the birth of a child, must provide certification from a healthcare professional for such leave, which is subject to approval by the District and in accordance with any applicable laws.

This provision does not grant an employee leave which extends beyond a period of contracted employment. This provision does not apply to employees who are eligible for FMLA leave. This provision does not apply to an employee who would be eligible for FMLA leave but has exhausted available FMLA leave for a given 12-month period.

Other Categories of Leave: All employees are entitled to certain leaves as required by law, including:

Employees who meet the legal definition of "volunteer firefighter" shall not be terminated from employment for joining a volunteer fire department or for absences required for responding to an emergency.
- J) *Leave to Vote:* Any employee eligible to vote, who does not have three successive hours free from employment with the District while the polls are open will be granted leave for up to three hours while the polls are open to allow an employee to vote if the employee makes the leave request prior to the date of the election. Family and Medical Leave: The District will provide leave to employees as required under the Family and Medical Leave Act (FMLA) in accordance with federal law, and provide all other types of leave protected by state and/or federal law. It is unlawful for any employer to interfere with, restrain, or deny the exercise of any right provided under FMLA. It is also unlawful for an employer to discharge or discriminate against any individual for opposing any practice, or because of involvement in any proceeding, related to FMLA.

To be eligible for FMLA leave benefits, an employee must:

1. Be employed at a worksite where 50 or more employees are employed by the District within 75 miles of that worksite;
2. Have been employed by the District for at least 12 months; and
3. Have been employed for at least 1,250 hours of service during the 12-month period immediately preceding the leave.

An eligible employee may qualify for up to 12 workweeks of FMLA leave within a 12-month period for the following reasons:

- J The birth of a child or placement of a child with the employee for adoption or foster care, within one year of the birth/placement.
 - o Birth and bonding leave must be taken as a continuous block of leave.
- J To care for a spouse, son, daughter, or parent who has a serious health condition;
 - o "Serious health condition" means an illness, injury, impairment, or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.
- J For a serious health condition that makes the employee unable to perform the essential functions of his or her job;
- J An employee with a "serious health condition" is "unable to perform the functions of the position" where the health care provider finds that the employee is unable to work at all, or is unable to perform any one of the essential functions of the employee's position. An employee who must be absent from work to receive medical treatment for a serious health condition is considered to be unable to perform the essential functions of the position during the absence for treatment. Employees may be required to present a fitness for duty to return to work.
- J Employees may be entitled to qualifying exigency leave under the FMLA arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active duty status.
 - o Eligible employees may take FMLA leave for a qualifying exigency while the military member is on covered active duty, call to covered active duty

- status, or has been notified of an impending call or order to covered active duty.
- Qualifying exigencies may arise when the employee's spouse, son, daughter, or parent who is a member of the Armed Forces (including the National Guard and Reserves) and who is on covered active duty or has been notified of an impending call or order to covered active duty. For purposes of qualifying exigency leave, an employee's son or daughter on covered active duty refers to a child of any age.

The District shall use the following established 12-month period to measure FMLA eligibility: July 1st – June 30th. Employees must notify the District of the need for leave and the reasons for leave so the District is able to make a FMLA eligibility determination.

If the leave is foreseeable, employees are required to request leave 30 days in advance, by specifying the reasons for leave, the anticipated start date of the leave, and the anticipated duration of the leave. When the need for leave is foreseeable less than 30 days in advance or is unforeseeable, employees must provide notice as soon as possible and practicable under the circumstances. In the case of leave for a qualifying exigency, the employee must give notice of the need for such leave as soon as possible and practical, regardless of how far in advance the leave is needed. A failure by an employee to provide required notice may result in a delay or a denial of FMLA leave.

The District will comply with procedures required under FMLA regarding notification of eligibility, rights, and responsibilities. The District will provide written notice to an employee if leave is designated as FMLA leave based on employment status and the reason for leave. The employee will be provided this notice within five (5) business days of the District receiving sufficient information to make an eligibility determination. If ascertainable, the notice will notify the employee of the time that will be counted against the employee's FMLA leave allotment.

The District may require an employee requesting FMLA leave to submit a timely, complete, and sufficient medical certification to support a request for FMLA leave due to the employee's own serious health condition. If requested, a response is required to obtain or retain the benefit of FMLA protections. Failure to submit a timely, complete, and sufficient certification may result in discipline, up to and including termination of employment or in a denial of an FMLA request. At least 15 calendar days will be provided to the employee to obtain a sufficient and complete certification. Certifications that are incomplete will be required to be updated as permitted by and within the timelines allowed under the law.

The District will apply all appropriate paid leave to an FMLA absence. Upon the exhaustion of applicable paid leave during a period of FMLA leave, the remaining FMLA-qualifying absences will be unpaid. If the employee is absent due to an injury/illness that is designated as a Workers' Compensation related issue that would also qualify as a serious health condition under FMLA, the absence will also be designated as an FMLA absence. The District may designate FMLA leave retroactively.

When both spouses are employed by the District, eligible for FMLA leave, and wish to take FMLA leave for the same qualifying event, the leave will be limited to a total of 12 workweeks during a 12-month period between the two spouses for the relevant qualifying event. The total taken by an individual employee will count against the individual employee's 12 workweek availability, should a separate FMLA qualifying event arise during the applicable 12-month period.

FMLA leave may be taken intermittently as required by law.

For eligible instructional employees who require intermittent or reduced schedule leave of more than 20 percent of instructional time, and whose principal function is to teach and instruct students in a class, a small group, or an individual setting, including teachers, athletic coaches, driving instructors, and special education assistants, such as signers for the hearing impaired, the District may require the employee to take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment or transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position. Additionally, if an instructional employee is scheduled to return from FMLA leave near the end of a school term, the District may choose to require the employee to prolong his or her leave until the beginning of the next term, in accordance with the law regarding this option under FMLA. Any leave that the District requires an employee to take between the time the employee is able to return to work and the beginning of the next term is unpaid, but shall not be charged against the employee's annual FMLA leave entitlement.

During a period of FMLA leave, employees are entitled to continue participation in the District's health plan for the period of protected leave. The District may require the employee to repay the District's share of the premium payment if the employee fails to return to work following the FMLA leave unless the employee does not return because of circumstances that are beyond the employee's control, including a FMLA-qualifying medical condition.

Employees who take FMLA leave may return to the same or an equivalent position with equivalent pay, benefits, and working conditions, upon return from leave as required by law. The District has discretion to determine what assignment is appropriate based on certification, qualifications, and what is in the best interest of students of the District and the consistent operation of the District.

Employee Health and Safety E-125-E

The District seeks to provide safe working conditions for all staff members. Staff members are required to comply with all safety guidelines and directives provided by District policy, job descriptions, and as provided by supervisors and administrators of the District. Staff members will be trained on health and safety. Staff members must report all conditions that threaten the health or safety of staff members or students of the District to the administration.

Staff members whose job descriptions set forth certain physical requirements may be required to provide documentation which indicates the ability to perform such duties in accordance with the law. Similarly, the District will make medical inquiries regarding employees in accordance with the law. Drivers of District transportation, whether directly employed by the District or through a contracted service provider, must upon hire and thereafter biennially, file a statement from the medical examiner within the District confirming that the individual meets the physical qualifications to operate District transportation for the purpose of transporting students.

The District will provide reasonable accommodations to employees as required under the Americans with Disabilities Act (ADA) and otherwise comply with other applicable provisions of the ADA.

Workers' Compensation

An employee of the District who is injured, killed or who is exposed to and contracts an occupational disease arising out of and in the course of employment is eligible for compensation in accordance with Missouri Workers' Compensation Law and District policy.

Employees are required to report all workplace injuries immediately to his or her immediate supervisor by submitting a written incident report. Injury reporting forms are located in each building's nurse's office, administrative office, and are also available by contacting an employee's supervisor. An employee's supervisor will assist the employee with completion of the written incident report as soon as possible in the event that the supervisor is aware of the incident and if the employee is unable to complete the incident report due to the nature of the injury or illness. Employees who fail to notify the District within 30 days may jeopardize their ability to receive compensation, and any other benefits under the law and District policies and rules.

The District may designate medical providers for Workers' Compensation evaluations, claims, and treatment. If the employee desires, he or she shall have the right to select his or her own physician, surgeon, or other such requirement at the employee's own expense.

An employee may experience reduced benefits in the event that an employee fails to comply with safety rules, guidelines, or directives adopted by the District or if the employee fails to use safety devices provided by the District.

If an employee fails to obey the District's drug-free workplace rule or any other District policy or rule related to the use of alcohol or non-prescribed controlled substances, an employee may experience reduced benefits or the loss of benefits as set forth under the law if the injury was sustained in conjunction with the use of alcohol or non-prescribed controlled drugs. District administration may require an employee who reports an injury to undergo post-injury testing for alcohol or non-prescribed controlled substances in accordance with the law. A refusal to submit to a test will result in the loss of benefits and may result in disciplinary action, up to and including termination of employment.

An employee is disqualified from receiving temporary total disability during any period of time in which the claimant applies and receives unemployment compensation. If the employee is terminated from employment based upon the employee's post-injury misconduct, neither temporary total disability nor temporary partial disability benefits are payable under the law.

Employees are not permitted to use paid leave for absences during a period when an employee receives any Workers' Compensation wage benefits. The District will apply paid leave, if available, to the first three (3) days of absence, if the total absence is less than 14 days, upon receipt of confirmation that an employee will not receive Workers' Compensation wages for those days. The District will require an employee to use any of the employee's accumulated paid leave, personal leave, or sick leave to attend to medical treatment, physical rehabilitation, or medical evaluations during work time. If no paid leave is available, such leave will be granted as unpaid leave. Employees who are absent due to a Workers' Compensation qualifying injury or illness and are receiving wage benefits during that period of time will not lose accrued leave for such absences.

Drug Free Workplace E-130-E

The District does not tolerate the use, manufacture, distribution, sale or dispensation of controlled substances, alcohol, or unauthorized prescription medications by employees of the District in any District setting, including but not limited to: District property, District transportation, vehicles approved for the transport of students to or from school-related activities or programs, off-campus sites being used for any District-sponsored or District-approved activity, program, or event where students are under the supervision of the District, or in any setting where an employee is engaged in District business that requires the supervision of students or involves the presence of students. The District does not allow employees to be present in any District setting described above while under the influence of any controlled substance, alcohol, or unauthorized prescription medication, even if such substance was consumed prior to the employee entering a District property or activity. All employees of the District are required, as a condition of employment, to comply with these rules. Information regarding assistance with drug and alcohol abuse, and the negative health and safety effects of drug use and alcohol abuse is available to employees by contacting Anthem member services at 1-833-578-4436.

Drug and Alcohol Testing: In accordance with the District's commitment to a drug and alcohol-free workplace, the District will make every effort to ensure that employees are not under the influence while engaging in their employment. The information included in this Employee Manual serves as notice to all staff members of the District's drug and alcohol testing procedures.

If the District has reasonable suspicion that a staff member is under the influence of alcohol or a controlled substance in violation of these rules, the District may require an employee to submit to an alcohol and controlled substances test. Employees who exhibit signs of being under the influence of a prohibited substance just before, during, or just after the period of the workday may be subject to reasonable suspicion testing. Additionally, staff members who operate District transportation are required to undergo testing as required by law. Drivers of District transportation, whether employed by the District or a third party contractor, are prohibited by law from using alcohol within four (4) hours of reporting for duty. Drivers who are required to take a post-accident test are prohibited from using alcohol for eight (8) hours following any such accident or until the driver undergoes the test, whichever comes first.

Supervisors of employees who have reasonable suspicion that an employee is under the influence of alcohol or drugs in the workplace are required to immediately report such condition to the Superintendent or designee. The Superintendent/designee will determine if testing is appropriate and if so, direct the employee at issue to submit to a mandatory test. Testing will be conducted at an appropriately qualified facility with collection procedures that are industry standard.

If the District employs its own drivers for District transportation who are “operators of commercial motor vehicles”, the District will comply with federal requirements regarding drug and alcohol testing, including the implementation of pre-employment drug screening, and reasonable suspicion, random, and post-accident testing at laboratories certified by the U.S. Department of Health and Human Services, and shall notify all drivers covered by federal requirements of such procedures. If the District contracts with a third party for transportation services, the District will require by contract with such third party that the contractor comply with all guidelines of the Omnibus Transportation Employee Testing Act and applicable state reporting requirements.

Employees who test positive for controlled substances or alcohol and employees who refuse to submit to a test or fail to comply with required testing protocol in order to obtain an accurate and/or timely specimen are in violation of this policy and are subject to disciplinary action up to and including termination of employment in accordance with District rules and District policies.

The District may refer any matter that may be a crime to the appropriate law enforcement agencies. Employees may be required to participate and complete counseling or rehabilitation programs if determined appropriate by the administration. A list of counseling, rehabilitation, and/or employee assistance programs available to employees can be located by contacting a school counselor.

Alcohol and drug screening records shall be maintained confidentially with an employee’s medical records and released only in accordance with the law. Employees who make a written request for a copy of records of an employee’s drug or alcohol use, including test results, may receive a copy.

The District is required to report certain convictions to the U.S. Department of Education or other required federal agency. Employees must notify the Superintendent of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after the conviction. The Superintendent is required to report any such conviction within ten (10) days after receiving notice from the employee or otherwise receiving notice of conviction, to any agency from which the District directly receives federal grant money. The District will take appropriate disciplinary action against employees with such convictions within 30 days.

If the District employs its own transportation service employees, the District will maintain records as required by law that relate to such drivers, and comply with all reporting requirements, including those set forth by the Missouri Department of

Revenue, and to subsequent employers only as expressly requested in writing by the driver-employee.

Procedure for Drug and Alcohol Testing of Employees Other than Drivers:

1. If a supervisor has reasonable suspicion to believe that an employee is in violation of the District's drug-free workplace rules, the supervisor is required to reduce information and evidence of such violation to writing and immediately report the incident to the Superintendent or designee. The supervisor should note all physical symptoms, witness to symptoms, and other evidence.
2. The Superintendent/designee will determine if testing is appropriate.
3. Testing will be administered as soon as reasonably possible based on the circumstances. If testing is delayed beyond a reasonable period of time, the Superintendent or designee shall document the reasons for delay.
4. Testing will be conducted at an appropriately qualified facility with collection procedures that are industry standard. If such facility is not readily available or practical, the District may contact a law enforcement agency or personnel to conduct such testing.

Pre-Employment Tests: Driver applicants are required to undergo pre-employment testing prior to performance of safety-sensitive functions and the District must receive a verified negative result. Prospective employees are required to submit to testing. Refusal to do so will disqualify an individual from employment. Current employees transferring from a non-safety-sensitive function into a safety-sensitive position are also required to undergo pre-employment testing.

Post-Accident Tests: All drivers will be trained on the requirement and procedures for post-accident testing. Drivers are required to comply with federal regulations and District procedures regarding testing.

Random Testing: The District will conduct random drug and alcohol testing of drivers. Random alcohol testing will be conducted just before, during, or just after an employee's performance of safety-sensitive duties. Random testing for drugs may occur without regard to proximity to the performance of safety-sensitive functions. Drivers will be selected by random process, and each driver will have an equal chance of being selected and tested for a given round of random testing. All random testing will be in accordance with federal regulations. A failure to submit to a random test or any interference with a test by the employee will result in discipline up to and including termination.

Reasonable Suspicion Tests: The District will conduct reasonable suspicion drug and alcohol testing in accordance with federal regulations. Any qualified supervisor who has reasonable suspicion to believe that a driver has violated the alcohol or drug prohibitions of the District shall initiate the procedure for testing, beginning with documenting the basis for reasonable suspicion. Final documentation of the basis for reasonable suspicion shall be signed and filed with the appropriate District administrator by the qualified supervisor within 24 hours of the basis for reasonable suspicion or prior to the results of the test being released, whichever is earlier. Reasonable suspicion alcohol testing requires that observations are made just before, during or just after the period of the work day when the driver must comply with alcohol prohibitions. The qualified supervisor who makes a reasonable suspicion determination is prohibited from administering the test itself.

Return-to-Duty Tests: Any driver who is not terminated as a result of a positive test must receive an evaluation from a substance abuse professional at the employee's expense and successfully pass an alcohol or drug test before the driver will be permitted to perform safety-sensitive duties. The substance abuse evaluation must be conducted in accordance with federal law and by a properly credentialed substance abuse professional.

Follow-Up Tests: If a driver has violated the prohibited drug and alcohol rules, the driver shall be required to take a drug and/or alcohol test before returning to safety-sensitive functions for the District. The driver shall be subject to unannounced follow-up testing at least six (6) times in the first 12 months following the driver's return to active safety-sensitive service.

Within ten (10) days of the determination of a failed test by a driver, the Director of Transportation shall notify the director of the Missouri Department of Revenue of any driver who has failed to pass any drug or alcohol test administered pursuant to District procedures. All information required by the Missouri DOR shall be provided by the District in accordance with the law.

Employees without Contracts of Employment: Employees without contracts of employment may resign by providing written notice of resignation to District administration. Such resignations are considered accepted by the District upon receipt by any District administrator or supervisor and cannot be withdrawn unless authorized by the Superintendent. The standards set forth below apply to any interactions staff members may have with students of the District or students of other schools. These rules are not comprehensive, therefore any inappropriate interaction a staff member has with a child may result in disciplinary action against the staff member. Staff members are required to avoid interactions or situations which may lead to an appearance of impropriety or which could give rise to allegations of an inappropriate relationship.

Interactions and communications with students should be related to the educational relationship between a staff member and a student. It is common for employees to have contact with students in appropriate settings outside of the school environment and context through familial ties, community groups and activities, and commercial endeavors. Even in such settings, employees must comply with the rules provided herein and otherwise maintain appropriate boundaries and relationships.

The District may provide or prescribe certain methods of or platforms for communication for staff members to reach students and may restrict/prohibit other methods. Prior to using a particular method of electronic communication with a student or group of students, a staff member must seek authorization from his or her supervisor regarding the method/platform and the intended purpose. Once a method of communication is approved, the staff member should only use electronic communication as often as required in order to achieve the approved purpose. Staff members may be required to include his or her supervisor on communications if directed to do so. Regardless of the mode, all communication must be for an educational reason. Unless otherwise approved by the employee's supervisor, all electronic communication must occur between the hours of 6:00 a.m. and 10:00 p.m. Staff members who communicate with students via electronic methods either on District-owned or personally owned devices, may be required to provide copies of all communications with students immediately if so directed by a supervisor.

Any employee who is aware of a fellow employee's failure to maintain appropriate boundaries with a student is required to immediately report any such concern to their immediate supervisor or the District Compliance Officer, and if applicable, comply with mandatory reporting requirements under the law. The District will provide annual training to staff members to ensure staff members are aware of these rules, signs of possible abuse, and reporting requirements under the law.

Personnel Records E-190-E

The District will maintain complete, accurate, and current personnel files for all employees of the District in accordance with the then-applicable Missouri Secretary of State's records retention schedule. The District will maintain records securely in accordance with any records-keeping recommendation practices made to the District by the District's auditors or the State Auditor.

Personnel records are maintained for the District's employment purposes and shall be confidential to the extent permitted by law. Individually identifiable personnel records, performance ratings, and records pertaining to employees, former employees or applicants for employment are closed records and not accessible to the public. Staff members are prohibited from using District resources, including letterhead and District email accounts, for providing personal references. Personal references may not give the appearance of the endorsement of the District. District employees, contractors, and agents are prohibited from providing personal references or otherwise providing assistance in obtaining a new job to any other school, any employee, contractor, or agent who has been accused of sexual misconduct regarding a minor or a student. If a written response of this sort is provided by the District, the Superintendent or designee shall send a copy of the response that was sent to the prospective employer to the current employee or former employee at the employee's last known address.

Additional factual information regarding an employee's duties and work performance may be provided by the Superintendent or designee only if an employee has submitted a written consent.

Reporting Bullying or Cyberbullying: District employees are required to report any instance of bullying of which the employee has firsthand knowledge. Any employee, substitute, or volunteer who witnesses an incident of bullying must report the incident to the building anti-bullying coordinator within two (2) school days of witnessing the incident. If the anti-bullying coordinator is unavailable or is the subject of the report, the employee should contact the District's Compliance Officer. In addition, all District employees, substitutes, or volunteers must direct all persons seeking to report an incident of bullying to the building anti-bullying coordinator.

Student Discipline S-170-E

The District is responsible for the care and supervision of students and holds students accountable for their conduct in school, on District property, including District transportation, and during District-sponsored activities in order to ensure the safety of all students and maintain an atmosphere where orderly learning is possible and encouraged. The District discipline policy and procedures will be provided to every student at the beginning of each year, be published on the District website, and made available in the office of the Superintendent during normal business hours.

Teacher Reporting Requirements

Teachers must report any assault to the principal and law enforcement. Any physical contact that produces actual (observable, even if slight) or potential harm (e.g., blow to the head without visible injury), should be reported to the principal. Teachers must report to the principal upon finding a student in possession of a weapon or controlled substance.

Student Code of Conduct

The District believes students deserve the right to participate and learn in a safe environment which allows teachers to focus on instruction that accelerates achievement. We expect and acknowledge that the majority of our students are respectful and well-behaved. However, to ensure that school is a quality atmosphere for all students at all times, the code of conduct and discipline policies outline consequences for misconduct that occurs at school, during a school activity whether on- or off-campus, on District transportation, or involves the use of District technology. All District personnel are responsible to supervise and hold students accountable for violations of discipline policies.

Disciplinary Consequences

The District's Discipline Scope and Sequence guidelines are published in the Student/Parent Handbook and are accessible at the end of this document or by clicking on the following links:

[District Discipline Scope and Sequence](#)

Corporal Punishment

Corporal punishment is defined as: "The intentional infliction of physical punishment, usually in the form of spanking, as a method of student discipline." Corporal punishment is strictly prohibited as a method of discipline. However, reasonable force may be used, when necessary, for the protection of a student or others or property.

Seclusion, Isolation, and Restraint S-205-E

The District is committed to implement professionally accepted practices to protect the health and safety of students. Therefore, as required by law, District policy comprehensively addresses the use of restrictive behavioral interventions for behavior management and student discipline.

Only authorized personnel who have received annual training in de-escalation practices, professionally-accepted and appropriate use of physical restraint, appropriate use of isolation and seclusion, communication expectations and requirements with students and families about restraint and isolation, required documentation procedures and District policy, are permitted to implement restrictive behavioral interventions. All staff members are expected to review District policy to become familiar with the requirements and limitations associated with seclusion, isolation and restraint.

The District prohibits confining a student in an unattended, locked space except for an emergency situation while awaiting the arrival of law enforcement personnel.

Administration of Medication S-135-E

All student medication is to be kept in the health office whether it is prescription or over-the-counter. District personnel are not authorized to dispense any medication, including over-the-counter medication, without written permission from a parent or guardian and then, only designated, trained personnel are allowed to dispense medication or treatment in the health office. Students who are incapacitated due to a cast, crutches, sutures, or other conditions need a physician's note specifying the restrictions and duration of the restrictions. The school nurse can assist with obtaining clarification of physician orders. You will be notified by the nurse, IEP case manager, and/or 504 case manager when a student has a health condition that warrants specific accommodations. Any accommodations agreed upon via a health plan, IEP, or 504 Plan must be followed as written.

Students with Allergies S-145-E

The classroom is the most common area in which students experience an allergic reaction. Therefore, to protect the student, yourself, and others, employees should know which students have life-threatening conditions and their plans (IEP, 504 Plan, Emergency Action Plan (EAP), and Individual Health Plan (IHP)). Employees must follow the plans, especially attending to accommodations. Employees must also attend all required trainings and individual meetings for a particular student. A student who is feeling ill after exposure to a known allergen should not be sent to the health room or office alone or with another student. If necessary, request assistance from staff outside the classroom.

Administrators will identify who will inform parents of any school events and activities where food will be served other than during regularly scheduled meal/snack times or when other allergens may be present (classroom teacher, nurse, case manager, etc.). Foods or other potential allergens should not be offered to students without parental approval. Employees must avoid using air fresheners, oils, candles, or other items that add fragrance to District facilities. Employees should not interpret food or product labels. Employees should encourage non-allergen and non-food activities, reward, and treats. Employees should educate, with written permission from the family of a student with allergies, the class and families of restrictions and precautions. All substitute plans should include any pertinent student information and procedures for students with a plan.

Reporting and Investigating Child Abuse S-160-E

Definitions:

Child abuse - Any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control.

Child neglect - Failure by those responsible for the care, custody, and control of a child to provide the proper or necessary support, education, nutrition, or medical, surgical or other care necessary for a child's well-being.

Reasonable cause to suspect – Some reason to believe that a child may have been subjected to abuse or neglect; the employee does not need to have any sort of conclusive proof or validation.

Mandated Reporting: Missouri law classifies all staff as mandatory reporters of child abuse and neglect. School employees are required to report possible abuse or neglect regardless of whether the alleged perpetrator had “care, custody, or control” of the alleged victim. As mandated reporters, District staff are required to immediately report any child abuse or neglect they suspect or observe by calling the Abuse Hotline at 1-800-392-3738. A mandated reporter may also make a report of suspected child abuse or neglect to any law enforcement agency or juvenile office. However, such report does not take the place of reporting to Children’s Division (CD). When in doubt whether abuse or neglect may have occurred, err on the side of reporting.

The reporting requirements, as defined in law, are individual. Therefore, a teacher’s or employee’s supervisor should not make the hotline call to CD. The teacher or employee must make the call themselves. Teachers and other District employees should not be disciplined or discriminated against for reporting suspected abuse or neglect to the CD in good faith. If any school employee has reasonable cause to suspect that a student has been subjected to abuse or neglect, the employee should be provided immediate access to a phone and be temporarily relieved of other work duties, as necessary, in order to make the report.

If a student reports alleged sexual misconduct on the part of a teacher or other District employee to a District employee, both the employee and the Superintendent must report the allegation to CD. CD is required to investigate the report. Investigate allegations against an employee of the District for the purpose of making employment decisions.

Making a Report: When a report to CD is made, the following information will be required: names and addresses of the child and his parents or other persons responsible for care; child’s age, sex and race; nature and extent of the child’s injuries, abuse, or neglect, including any evidence of previous injuries, abuse, or neglect to the child or siblings; name, age and address of the person responsible for the injuries, abuse, neglect, if known; family composition; source of the report; name, address, contact information, and occupation of the person making the report; actions taken by the person making the report; including any photographs taken and/or keeping the child; any other information that may be helpful. If CD declines to accept the report, log the name of the representative, the date, and the report made.

Student Records S-125-E

Student education records are official and confidential documents protected by the Family Rights and Privacy Act (FERPA). A student education record includes information such as date and place of birth, parent/guardian names and addresses, emergency contact information, enrollment and attendance records, academic records, special education records, discipline information, and health records.

A student record may also consist of notes or communication shared with one other individual that contains personally identifiable information regarding a student, including email, texts and other forms of information transmitted. Communication about a student must be consistently professional in all contexts.

Education records are requested and disclosed as required by law. Only District employees with a “need to know” have a right to certain types of a student’s education records, which may not be the same information dependent upon one’s role with the students. The District is required to document specific information associated with disclosing student records. When records are shared outside the District policy and procedures, it may create unmanaged risks for the District and the employee who shared information apart from approved procedures.

All records requests made to anyone in the District, unless it involves specific classroom assignments or activities, should be directed to and responded to by the District Custodian of Records. Student records is addressed within District Policy S-125-P and in the Student/Parent Handbook.

Directory information is information about a student that generally is not considered harmful or an invasion of privacy if disclosed without the consent of a parent or eligible student. The District annually publishes in the Student/Parent Handbook the types of information included in directory information and may release this information without obtaining consent from a parent or eligible student unless a parent or eligible student notifies the District in writing. The District designates the following items as directory information:

General Directory Information: The following personally identifiable information about a student may be disclosed by the District without first obtaining written consent from a parent or eligible student: Student's name; date of birth; parents' names; grade level; enrollment status (e.g., full-time or part-time); student identification number; user identification or other unique personal identifier used by the student for the purposes of accessing or communicating in electronic systems as long as that information alone cannot be used to access protected educational records; participation in District-sponsored or District-recognized activities and sports; weight and height of members of athletic teams; athletic performance data; dates of attendance; degrees, honors and awards received; artwork or coursework displayed by the District; schools or school districts previously attended; and photographs, videotapes, digital images and recorded sound unless such records would be considered harmful or an invasion of privacy.

Community, Finance, Facilities, and District Operations

Use of Recording Devices or Drones C-165-E

Requests for such authorization must be made within a reasonable period of time prior to the recording. The solicitation of information including, but not limited to, political campaigning, is also prohibited.

Employees are required to comply with District purchasing guidelines. Comprehensive guidelines are located in District Policy. For the purposes of this Employee Manual, the following purchasing guidelines are particularly relevant:

-) District staff members are encouraged to purchase products manufactured, assembled or produced in the United States.
-) The District will follow all requirements for purchases undertaken with federal funds which are subject to the federal Uniform Grant Guidance (UGG) and other applicable federal law, including but not limited to the Education Department and General Administration Regulations (EDGAR) and the United States Department of Agriculture (USDA) regulations governing school food service programs.

1. The Board will set limitations on the use of the Superintendent's credit/purchasing card. The Superintendent will set the limit on all other credit/purchasing cards.
2. Any employee using a District card shall first sign a card usage agreement and receive training on procedures for card use.
3. Employees issued credit or purchasing cards must reconcile their statements every month. Documentation, including receipts and the appropriate budget code, will be produced for each item purchased.
4. The Superintendent or designee will examine all documentation prior to payment. If any purchase was made by an employee contrary to law, Board policy or administrative procedures, the Superintendent/designee will immediately confiscate the card.
5. District cards will not be used to purchase personal items, or unauthorized items.

Petty Cash: District administrators are responsible for the accounting of petty cash. All petty cash funds must be used exclusively for school purposes and appropriately documented.

Fraud Prevention F-160-E

Reporting Suspected Fraud or Financial Irregularities: Any person who has reason to suspect fraud or financial irregularities should report that suspicion to the Superintendent or designee as soon as practicable. Employees or District volunteers who suspect fraud or financial irregularities are required to report it and may be disciplined or dismissed for failing to do so. If the suspected fraud or financial irregularity directly involves the Superintendent, the report should be made to the Board President. Reports will be kept confidential to the extent allowed by law. The person making the report should not communicate directly with the suspected individual or individuals unless specifically authorized to do so.

Expense Reimbursement F-175-E

The purchasing procedures of the District are required to be followed for all regular purchasing practices. For emergency or special circumstances purchases, the Superintendent or designee may authorize the reimbursement of certain expenditures. Any reimbursed expenditures will fall within the District's budget, must contain documentation of why the expenditure occurred and receipts for the expenditure must be produced.

Travel Expenses F-180-E

With prior written approval by the Superintendent, the District will pay reasonable expenses necessary for those who travel on District business. Each employee traveling on District business will file with the Superintendent or designee an itemized account of expenses incurred. Each employee will submit any other reports regarding travel as may be required by the Superintendent or designee.

Automobile travel will be reimbursed at the Internal Revenue Service (IRS) mileage rate applicable at the time of travel. Reasonable travel costs must not exceed charges normally allowable by the District in its normal operations. Commercial air travel must be the least expensive, unrestricted accommodation class.

Travel documentation should include an itemized account of expenses incurred, written justification for participation on behalf of the District, the reasonableness of costs incurred, and consistency with District rules. Such documentation should also include a list of District attendees, the agenda or program, and Superintendent's written approval.

Traffic and Parking Control F-210-E

All District parking lots and sidewalks are under the control of the Superintendent or designee, and subject to restrictions deemed appropriate by the administration. Vehicles on school property are subject to search in accordance with law. District parking lots carry the same restrictions from weapons or items prohibited from District buildings. Administrators have the ability to restrict or prohibit vehicles from being on school property, and administrators have the ability to request vehicles be moved. If

individuals refuse to comply with the request of the administrator, the vehicle may be towed at the owner's expense.

Safety F-225-E

The District has developed a Comprehensive Safety Plan which can be located by contacting the District's Director of School Police and Safety.

Emergency Preparedness Plan F-230-E

The District has developed an Emergency Preparedness Plan which can be located by contacting the District's Director of School Police and Safety.

Firearms and Weapons F-235-E

Weapons may only be possessed on school property by commissioned law enforcement officers, other specifically trained individuals, or for the purpose of a school-sanctioned firearm related event. Examples of school sanctioned events include gun safety courses for students, military student programs, or school-sponsored club shooting team. A weapon is defined as a device readily capable of lethal use, or device designed to mimic a weapon. Unless exempted by this policy, weapons are banned from all District property and District related events, as allowed by law. The District will follow all state and federal law that addresses the discipline of individuals that violate this policy.

Communicable Diseases F-245-E

Medical information of students and employees is highly confidential, and the District will take necessary steps to protect the medical information of individuals, except as provided by law on a need to know basis.

Employees are not allowed to work if they have a medical condition that is communicable, unless they have a written statement from their physician clearing them to work, and the appropriate school personnel have agreed with the precautionary measures, as necessary, offered by the treating physician, as permitted by law. The Superintendent or designee will work with local agencies and the State Health Department on identifying categories of potential risk, procedures for cleaning body fluids, and procedures for dealing with communicable disease in individuals. District funds will be utilized for the purchase of equipment and supplies necessary to appropriately clean body fluids. The Superintendent or designee is permitted to communicate personally identifiable health information of students and employees with other governmental agencies, as permitted by law.

Students, employees and visitors to schools may not be present on school property unless they have received the appropriate immunizations required by law, unless they are appropriately exempted.

Animals on District Property F-250-E

Eligible students or adults with disabilities may utilize a service animal on District property or District events as required by law and the conditions of this policy. The District will not discriminate based on an individual's disability.

The definition of a service animal will be based upon state and federal law. The task of a service animal must be based upon the disability of the individual. The “deterrent of crime” effect of a service animal’s presence and the provision of emotional support, well-being, comfort, or companionship does not constitute work or task for the purpose of this definition.

The definition of a service animal applies to a dog, and in some cases a miniature horse. If a miniature horse, the District will determine if the presence of the horse compromises facility safety requirements, and what modifications might need to be made because of the weight and size of the horse. The District may inquire what task or work the animal has been trained to perform, and whether the animal is required because of a disability.

Service animals will not be allowed on District property if they present a safety risk or a health threat to students, employees or visitors. The District is permitted to make additional inquiries of the individual or service animal as permitted by law.

Technology F-265-E

The Superintendent or designee will delegate responsibility for the District’s technology system to a school employee. In addition, the District may contract with one or more vendors to assist in the overall operation of the technology system of the District. The District’s technology system shall be considered a closed forum to the extent allowed by law.

The technology resources of the District may only be utilized by individuals authorized by the District. Students, employees and Board members are required to sign a User Agreement prior to utilization of the technology resources of the District. Users do not have an expectation of privacy in utilizing any District technology resources.

Users of District technology are subject to necessary review of data accessed or stored on District technology and technology equipment, as allowed by law. The District will utilize a content filter system to help prevent minors from accessing inappropriate information and the District will retain data stored electronically as required by law. The District will monitor the online activity of students in compliance with the Children’s Internet Protection Act (CIPA).

Copyrighted Materials F-270-E

A summary of copyright laws is posted by each copy machine in the District and the same information is posted on the District’s website. If any student or employee believes copyright or intellectual laws have been violated, they should report the issue to the building administration. The building administration will refer the matter to the Superintendent’s office for coordination of an investigation into the allegation.
